

COOCOONLY BABY CARRIER INSTRUCTION MANUAL

WARNING

FALL AND SUFFOCATION HAZARD

Read all instructions before assembling and using this baby carrier. Keep this insert for future reference.

FALL HAZARD – Infants can fall through a wide leg opening or out of carrier.

- Before each use, make sure all fasteners are secure.
- Take special care when leaning or walking.
- Only use this carrier for children between 7 lbs and 40 lbs.
- Never bend at waist; bend at knees.

SUFFOCATION HAZARD – Infants under 4 months can suffocate in this product if face is pressed tight against your body.

- Do not strap baby too tight against your body.
- Allow room for head movement.
- Keep infant's face free from obstructions at all times.

Additional Safety Warnings:

- Premature infants, infants with respiratory problems, and babies under 4 months are at greater risk of suffocation.
- Always keep your baby's face visible and airway clear.
- Face inward until baby can hold head upright.
- Stop using immediately if any buckle, seam, strap, or fastener is loose or damaged.

BEFORE EACH USE

Check all buckles, straps, fasteners, and seams.

Adjust the waistband first, then secure shoulder straps.

Practice fitting the carrier before placing baby inside.

Ensure only one child within the specified load range is placed in the carrier at a time.

ERGONOMIC POSITIONING CHECKLIST

Ensure your baby is positioned correctly for their age and development.

ERGONOMIC POSITIONING

"M" POSITION (Recommended)

- Baby's knees should be higher than the bottom.
- Thighs should be fully supported.
- Avoid vertical leg positioning.

M POSITION

Baby's legs form an "M" shape with knees higher than the bottom and thighs fully supported.

Fasten the waistband snugly at your natural waist.

Place baby onto the seat and support baby with one hand.

Bring shoulder straps over both shoulders and fasten the buckles

Final Positioning Check:

- Baby is close enough to kiss.
- Chin is off the chest.
- Face remains visible at all times.
- Back is supported in a natural curve.

CARRYING POSITIONS

1. Newborn Hold (0–3 months)

Use full head and neck support.
Baby stays high, snug, and inward facing.

3. Front Carry – Outward

(6–36 months) Use only once baby can hold head upright independently.

2. Front Carry – Inward

(0–6 months) Recommended starter position. Baby faces inward with airway visible.

4. Back Carry (6–36 months)

For older babies with strong neck and trunk control.

Feeding in the Carrier:

If you nurse in the carrier, reposition baby immediately after feeding so the face stays visible and clear of your body.

Always keep baby's airway clear and face visible.

Do not cook near heat sources while wearing carrier.

Do not use in a vehicle (driving or riding).

Do not use during exercise or running.

Do not use when dizzy, drowsy, or medically unfit.

CARE & CLEANING INSTRUCTIONS

To keep your carrier in the best condition, follow these cleaning guidelines:

Hand wash with mild detergent

Do not bleach

Do not tumble dry

Air dry / Drip dry

Do not iron

Do not dry clean
